

FUEL TRANSACTION PM

Powered by CAFDEX®

Comprehensive Adaptable Capabilities for DoD Aviation Fuel Reconciliation

***The appearance of U.S. Department of Defense (DoD) visual information does not imply or constitute DoD endorsement.

FTP Supports

-  Automatic Import of DLA (EEBP) Fuel Transaction Data
-  Validation of Transaction Alerts
-  Reconciliation of Monthly Bills
-  Signature of Monthly Memorandum
-  Analysis and Reports
-  Creation of End-of-Year MORD

Key Benefits

- Facilitates audit compliance for fuel reconciliation (AFI 11-253) and memorandum signature
- Detects errors and duplicate billings, resulting in tangible cost savings on fuel and process opportunities
- Intuitive system helps with quick onboarding of new personnel

Exclusive Capabilities

- Command and unit visibility of fuel transaction reconciliation status
- Sales receipt (DD1898) import tool with automatic reconciliation capability
- Comprehensive data interfaces -- DLA (EEBP), Aircraft inventory, Aviation Fuel transactions, Fuel rates, Financial data (CRIS/DEAMS)
- Automatic identification of transaction anomalies and assignment of key alerts for correction
- Historical tracking of all actions and email logs
- Interface of REMIS data to research aircraft locations

The Flying Hour Program (FHP) Advantage

- Cloud-ready application operating in a .Mil environment
- Authority to Operate (ATO)
- CAFDEX® certified developers and trainers.
